OCTOBER 17, 1975

DEAR DR. IEDERBERG,

I AM GOING TO INSTUCT COMMERCIAL FISHING, AND AQUACULTURE IN THE PACIFIC N. W. THIS COMING YEAR.

THE BREAK-THROUGH IN GENETIC ENGINEERING THAT YOU HAVE BEEN ENGAUGED I PROMOTES SOME HIGHLY INT' ESTING POSSIBILTYS FOR AQUACULTURE, DEALUNG WI' SHELL FISH&FISH.

WHATEVER INFORMATION DEALING WITH THIS PARTICULAR SEGMENT OF GENETICS WOULED BE MORE THAT WECOME, IN ORDER TO MAKE THIS A SUCCESS WITHIN RESC TO PRODUCE BETTER QULITY&QUANTITY SEAFOODS TO HELP EASE THE MOUNTING FOOD SHORTAGES WE ARE FACING THROUGHOUT THE WORLD TODAY.

IN ORDER TO QULIFY FOR THE TOTAL FUNDING, A SMALL STAFF&MYSELF WILL DO A SURVEY&STUDY FOR A PERIOD OF THREE MONTHS BEFORE FULLY STAFFING, AND GOING INTO OPERATIONS.

WE PLAN A BROAD SCOPE OF TRAVELL IN ORDER TO ASSEMULATE DATA&INFOMATIO MEATHODS, PROCEDURES.

AT PRESENT THIER IS NO PROGRAM IN THE U. S. COVERING THE TOTAL SCOPE THIS PROGRAM.

A MARINE BIOLOGIST WILL BE WITH US IN THIS PROGRAM, STATING WITH THE SURVE AS ONE OF THE PERMANENT STAFF .

I WILL CLOSE FOR NOW, AND HØPE FOR SOME RESONSE.

SINCERLY YOUR'S,

ROY L. MORGAN
